Across the Continent on The Stearns.

NEARLY 4,000 MILES WITHOUT A BREAK. 400 RIDERS-400 WHEELS. NOTHING BUT STEARNS BICYCLES RIDDEN.

THE Journal-Examiner Yellow Fellow Relay finished Sept. 7, in the marvelous time of 13 days, was the greatest cycling event ever originated, and its successful execution demonstrates the strength and speed merits of the Steams as these virtues have never before been established for any bicycle. This ride over trails, mountain passes, rocks, boulders, callroad ties, deserts and cactus fields in such time is simply marvelous, and it all stands to the credit of the Stearns, whose makers originated and augressfully executed the select.

The way to do it is to do it on the Stearas.

THE M'CORD CAMPAIGN:

The Washington Times Gives Wilson Some Timely Advice.

The Washington Times of recent

date prints the following : The mission to Washington of Attorney General J. F. Wilson of the Territory of Arizona has furnished for a day or so material for considerable adverse comment in political circles. The reason for his coming is extraordinary, if not unique when compared with he emitomary usage in the matter of appointments and more especially as to how they are secured. Mr. Wilson and the confirmation of Myron H. McCord at icvernor of the Territory, Col- McCord President and Mr. Wilson the Democratic Attorney General of the present Gov. Franklin, an appointee of Grover

At a meeting of the Senate committee on Territories on Wednesday it appeared that the committee was ready to report favorably on account of the showng made for the new appointee, but on s formal request for postponement made by the opponents of Col. McCord an adjournment was had until to-day, when, however, no action was taken, the committee adjourning again at the request of Mr. J. F. Wilson in order to allow the placing before it of formal charges against the President's nominee.

One of the curiosities of this campaign of Mr. Wilson against Col. McCord is, according to a Phoenix dispatch in the New York World, the statement that that Switzerland, though a small rehe is here at the expense of the treasury public, is to be scorned by those who of the Territory,

The case, therefore, presents the somewhat curious spectacle of a Democratic Territorial officer appearing as the official representative of the opposition to the confirmation of a Republican nominated to office by a Republican President.

The charges which Mr. Wilson feels he is loaded with against McCord ave many and various, but it is generally understood that they will simmer down to a strong desire on the part of Gov. possible and incidentally for a similar

face at least, appears to be wholly permal, for the telegrams and other in-

formation received in Washington for known. the past ten days demonstrate that there is little or no opposition to Mc-Cord in the Territory. Every prominent official in the Territory, whether Democratic or Republican; every Democratic or Republican newspaper; the four judges of the Supreme Court, and representative lawvers and busines men, all unite in the belief that Mr. Mc-Cord, considering his long residence in Arizona, would make a thoroughly acceptable executive.

There are, however, other reasons for adverse comment on the hostility of Mr. Wilson to the confirmation than that he belongs to a different political party from that of McCord, and that ordinarily it would be a case for Republicans to settle as the dispensers of the patronage. The fact was developed today that this same Gov. Franklin, appointed only a year ago by Mr. Cleve land, is himself the subject of charges, which were presented to Mr. Cleveland during the last months of his administration and are now on file in the Interior Department. These charges are of the most serious character and even now are awaiting investigation by a special agent of the department.

It was agreed this morning that if Attorney General Wilson is really here at the expense of the Territory, he should find some leisure from his pur, suit of Mr. McCord to give some attention to the charges against the Govern-

or to whom he owes his official posi-

A recent issue of the Pueblo, Colo, Chieftan contained the following interesting advertisement: "Wanted-By a competent woman, a place to work for her husband's board." This sounds like B western echo of the "new woman" movement, but it is probably the same 'old" woman who has been doing just that thing everywhere, since the time whereof the memory of man runneth not to the contrary.

The Los Angeles Times is responsible for the following: "A Randsburg man advertises for sale a town lot, from until the newspapers spoke of cooking utensils and bedding, 'together their being given up for ball. The last with a lady that goes with the outfit,' session of the grand jury held in this all for \$18. It would appear from this city found indictments against these the market at Randsburg. The idea Sheriff Orme has been watching for of giving away a 'lady' with every lot them ever since, with the result that sold has never occured to Los Angeles this morning White was lodged in jail real estate dealers. A Cow Boy's Peril.

[From the Phonix Republican.] While Phil. Sheridan was out on the range lately he met a cow boy who was accused of overworking his running iron. Mr. Sheridan has cattle in you; if they happen to be true, you may get the Yuma iron run on you, if replied Mr. Sheridan, "they say you're that the said the cow boy, "I though mebbe they was accusin me of holding up stages or hour stealin',

Would you let that there steer keep chawin' the tail off'n yer pony, or would you get off an' cut slits in his ears and put yer iron on him an' make him take the back trail? Now, Phil. just answer that question an' pat yerself in my place."

The Big Bug Onyx Deposits.

[From the Albuquerque Democrat.] The Big Bug onyx mine, which is located about twenty-eight miles southworked in the near future. George C. Underhill, a marble expert of Rutland, Vt., passed through Albuquerque on his way to the mine last Thursday morning, accompanied by five expert quarrymen. Mr. Underhill will only stay long enough to see the work of opening up the deposit properly begun and will return through Albuquerque within a couple of weeks, when he expects to spend a few days here. The quarrymen who accompany him will remain to give instructions as to the proper method of taking out the onyx, to the men who will be hired on the ground. The figure paid for the Big Bug property was something like \$150,000.

from Nogales where he went in search of China White, who has been assoniated with Johnson, the Phornix Portrait Co, man, with whom the public have been acquainted for some time from his manner of collecting money and photographs for enlargement, and the poor dupes never again hearing from either. These men got into trouble in the southern portion of the Territory some time ago and put up a fine team of horses as surety for their appearance before the District court on an appeal from the sentence of the Justice court on a charge of receiving money under false pretenses. This team belonged to Mr. Gowatt, of this city, from whom they had been rented and from the time they were taken from this city they had not been heard that 'ladies' are somewhat of a drug in men for embezzling this team and Phonix Herald.
